

**That smooth sharpness, ready at once**

Our 700 top-loader washing machine with SteamCare system reduces wrinkles in your laundry by a third. It introduces steam at the end of the programme, helping you to achieve a smoother finish. All without the heat and effort of regular ironing.

**Product Benefits & Features**

**Refresh with steam and wear it again, saving up to 96% of water.\***

The 25-minute Steam programme is suitable for delicate garments and uses less water than regular washing. When clothes don't need a full wash, use quick Steam cycle.

\*Based on internal test comparing water consumption of the Steam programme with a full wash 30°C Delicates program using a 1kg cotton load

**SensiCare System - Customised care in a shorter time**

Our SensiCare System weighs each load and automatically adjusts the cycle, so that your clothes are cleaned for just the right amount of time. Preventing over washing and ensuring items retain their look and feel for longer.

**Retain freshness with SoftPlus**

Laundry feels soft and smells fresh for longer with the SoftPlus programme. It soaks and evenly distributes fabric softener before the final rinse, so all your clothing is perfectly cared for.

**Save energy with Eco TimeManager**

Enjoy energy-efficient washes with the Eco TimeManager option. Save resources by tailoring the length of washes to suit you, without having to compromise on quality. Clothes are cleaned carefully and efficiently.

**Soft Opening, for easy access**

Easily load and unload your laundry with our Soft Opening system. The push-button lid and soft inner-drum doors make access simple and safe. And because the opening is at the top, you can clearly see the contents.
