

Silent & Powerful cleaning with up to 100%* dust pick-up.

The 700 Silent Bagged Cleaner delivers powerful cleaning with remarkably quiet performance. Its efficient airflow system, Auto Mode, and advanced HEPA filtration work together to optimise performance while delivering exceptional cleaning results.

*Based on internal test at auto mode on hard floors with crevices according to IEC 62885-2 .2021

Product Benefits & Features
A powerful clean. Practically silent

Clean when it suits you – without disturbing others. PureSound+ with its sealed motor design and sound-absorbing material deliver powerful performance at just 59 dB(A)* – keeping noise to a minimum for quietly powerful performance.

*Measured in Auto Mode setting according to IEC 60704-2-1:2020.

AllFloor Auto nozzle for powerful, all-surface cleaning

The AllFloor Auto nozzle with innovative rubber triangles and a soft brush makes cleaning a breeze. The nozzle cleans any surface – from carpets to hard floors – while delivering up to 100%* dust pick-up. The advanced motor technology gives 20%** more suction power.

*Based on internal test at auto mode on hard floors with crevices according to IEC 62885-2 .2021

**Based on internal test at high mode according to standard IEC 62885-2 in comparison with Electrolux Pure One P10

Suction that instantly adapts as you clean

Auto Mode automatically adjusts suction power as you move between hard floors and carpets, saving up to 50% energy* without compromising results. Together with the AllFloor Auto nozzle, you'll enjoy smooth cleaning across all surfaces. Smoother cleaning with no manual switching.

Based on the comparison of the maximum input power measurement at High setting and Auto mode on Carpet.

Comfort and control with every clean

Clean with ease and comfort. The ergonomic handle with comfort grip, lightweight telescopic tube, and XL rubber-coated wheels ensure smooth movement. A 12 m action radius lets you cover more space, while the balanced carrying handle makes lifting between rooms effortless.

Hygienically cleaner home

The HEPA filtration system captures up to 99.999%* of particles as small as 0.3 microns – like fine dust, dust mites, and allergens – so the air released is cleaner, fresher, and healthier for your home. The filter is washable, too.

*Based on internal tests on filtration of micro dust particle sizes 0.3-10 microns according to standard IEC62885-2:2021, 5.14 using standard sand/dust particles.

- 12 m action radius
- Washable Hygiene Filter E12
- Cord winder
- Hard floor nozzle
- Manual power regulation
- Bagged cleaner with s-bag®
- Dustbag Full Indicator
- Front and Top handle
- Soft wheels
- Easy spinning wheels
- Integrated parking slots
