

Enjoy greater kitchen design freedom

Enjoy the multiple benefits of an induction hob that fits a 60cm cabinet with a built-in extractor for optimal airflow. The 600 Bridge Extractor Hob also has a Bridge function, allowing you to combine 2 cooking zones into one larger area.

Product Benefits & Features

Enjoy more kitchen planning freedom with integrated extractor

Kitchen Planning Freedom: Combine the speed, power and efficiency of an induction hob with integrated extraction to reduce placement restrictions on the hob.

Subtle and smooth. With elegance that lasts

With a smooth, matt black surface, SaphirMatt® SE hobs offer lasting elegance. The design complements any kitchen and continues to look new longer, with up to 3X more scratch resistance than a standard hob surface.*

*Based on abrasion tests conducted by external Swiss laboratory in accordance with international standard IEC 60068-2-70. Scratch visibility is assessed internally in comparison to our standard ceramic glass hobs without special treatment or coating.

Create a larger cooking area with the Bridge feature

Simply press the bridge button to connect two cooking zones for more surface area. The Bridge feature is a fast, convenient way to handle larger cookware like planchas with ease.

Easily set the right power level with one touch control slider

Fast, easy, and precise control of all nine-level cooking zones with the Direct Touch Single Slider. With the PreciseHeat function, you can always set the perfect power level, down to a half level, for whatever you're cooking.

Enjoy a fresher kitchen atmosphere with less cooking odour

The included OdourClean Standard Carbon filter reduces kitchen odours. Easily replaced to keep your kitchen air fresh. Can also be replaced with the OdourClean Plus filter.*

- Booster function
- Child safety lock function
- Bridge Function
- Hob²Hood funktion
- Timer function
- Pause function
- Automatic safety switch off
- Indicator for grease filter saturation
- Indicator for carbon filter saturation
- Charcoal filter included
- Tubes included

*The stated lifespan is an estimate based on internal testing. Performance may vary depending on individual usage patterns and conditions; actual lifespan may be shorter or longer.
