

AUTOMATICALLY ADJUSTS TIME, WATER AND ENERGY CONSUMPTION BASED ON THE LOAD SIZE

The 6000 ProSense® Washing Machine automatically adjusts time, water and energy consumption to the size of the load, even if it just a single shirt or your entire weekly laundry. Ensuring your clothes are only washed for the exact amount of time needed to maintain colours and textures for longer.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

Product Benefits & Features

PROSENSE® REDUCES UP TO 30% OF TIME, WATER, AND ENERGY* BY OPTIMISING EVERY LOAD

ProSense® automatically weighs each load to provide a tailored cycle. It can reduce your time, water, and energy usage by up to 30%*. Sensors then adjust washing times precisely, providing optimum treatment for every garment. Ensuring your laundry comes out with that fresh new feeling, every time.

Less creases with EasyIron

The EasyIron programme leaves your clothes with fewer creases. During the gentle cycle, the drum alternates the direction of its rotation, allowing clothes to move more freely. So you spend less time standing over your ironing board.

*Internal test for time, water and energy consumption of a 30°C Cotton cycle optimized with ProSense for a 1kg load vs. maximum load.

THE HYGIENE PROGRAMME REMOVES MORE THAN 99.99% OF BACTERIA AND VIRUSES*

The Hygiene programme certified by Swisstatest is a high-performance wash cycle that removes more than 99.99% of bacteria and viruses* from clothes. By keeping your wash temperature above 60°C, you can also reduce allergens.

MIXLOAD 69 MIN CUSTOMISES LAUNDRY CYCLES AND SAVES YOU TIME

The MixLoad 69 min programme adjusts energy usage based on load weight when cleaning daily mixed loads. It washes clothes at 30°C and in just 69 minutes. Achieve optimal performance and outstanding cleaning results with MixLoad 69 min.

*Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstatest Testmaterialien AG in 2021 (Test Report No. 202120117)

INVERTER MOTOR+. DURABLE AND ENERGY-EFFICIENT

Experience energy-efficient washing for longer with the Inverter Motor+. Built for low energy consumption thanks to permanent magnet motor technology.

- ÖKOInverter motor: The lowest energy consumption with the highest efficiency and durability.
- SoftDrum
- Stains treatment option
- Number of detergent dispenser compartments: 3
- Extra rinse option
- Antiflood device with Aqua Control sensor
- Anti-flood protection
- Woolmark Blue
- Washing programs: 20Min 3Kg, Cottons, Delicates, Duvet, Eco 40-60, Hygiene, Mixload 69Min, Outdoor, Synthetics, Wool
