Electrolux

Electrolux ErgoMini up to 20

EH1EM10DG

Small in size. Big on performance with up to 100% dust pick up*
Don’t let the size fool you. At just 0,55kg ErgoMini combines ultra-light design with cyclonic technology for long lasting high performance, powerful suction and practical blowing functionality, to tackle smaller and bigger messes, anywhere.

*Based on internal tests for particle sizes between DMT type1 fine dust to larger debris type M3 nut.

Product Benefits & Features

Up to 3x longer strong suction, fewer filter cleans*
From start to finish, a powerful clean. Cyclonic technology separates dust and dirt, reducing filter clogging, ensuring longer strong performance, before the need to clean the filter - so everyday cleaning feels smooth, effortless, and reliable.

*Based on internal testing measuring pressure drop after each cleaning cycle when vacuuming 10 g of fine test dust (DMT). Compared to leading handheld vacuum cleaners under 1 kg priced between 65-120 EUR.

See it. Catch it. Clean it
With a built-in LED light to expose dust and up to 100% dust pick-up performance*, this handheld vacuum makes sure nothing escapes your clean. Perfect for everyday messes.

*Based on internal tests for particle sizes between DMT type1 fine dust to larger debris type M3 nut.

Quick, versatile cleaning. Anywhere
From crumbs to car seats and hard-to-reach corners, this handheld vacuum cleans any surface. Simply attach the blowing tool to utilize the powerful airflow and release dirt from tight spaces, then let strong suction remove it in seconds.

Lightweight convenience. Always ready to go.
At only 0,55kg, ultra-light design meets practical convenience. An integrated hook allows it to fit seamlessly into your space – sleek enough to hang on the wall - while USB-C charging lets you conveniently recharge anytime, anywhere.

- LED headlights in the nozzle
- Easy emptying
- DustSpotter™ LED lights
